

Discussion on further developments and actions

● In terms of dissemination/implementation

- Drawing lessons for further developments on E&T
- Development of tools, guidelines, leaflets for disseminating RP culture
- Development of evaluation process of the development of RP culture
- Identifying the role of national and international RP organisations in the development of RP culture
- Relationship between RP culture and scientific research developments in RP
- Involvement of journalist, mass-media

- In terms of further research
 - Role of RP culture, tolerability of risk and new development in radiological risk assessment
 - Role of RP culture in the search for reasonableness
 - RP culture as part of public health issues (public health culture?) including the concept of well-being
 - Role of risk comparison with other domains for the development of RP culture
 - Complement the analysis of the role of RP culture in feedback from decision making processes in different domains involving radiological exposures including the analysis of the role of the different stakeholders
 - Environmental protection and RP culture
 - RP culture for addressing future generation issues
 - Role of social media in the development of RP culture
 - Possible contribution of Artificial Intelligence for developing RP culture
 - Possible contribution of the new development in citizens science for developing/integrating RP culture
 - Ethical issues associated with actions implemented to develop RP culture

- In terms of further research for specific exposure situations
 - Radon:
 - RP culture for the management of occupational exposures to radon
 - Which other developments?
 - Medical:
 - RP culture for patients – what is meant by Informed Consent, what is the aim of RP culture, with the distinction between exposure in the field of diagnostic or treatment, ...
 - Which other developments?
 - EP&R:
 - Which other developments?
